

Hi, Bob

We reviewed the flowchart that has been sent to our team.

There are some questions on the flow that appeared:

- 1) What is “cli args” in the very first step of the flowchart?
- 2) How it should be displayed from the UI prospective?

These are our thoughts on it:

- 1) After hitting a button we get a list of dates when salaries/bonuses are paid
- 2) Should there be any filters?
- 3) Should the dates be displayed on UI or downloaded as a file?

Best regards, Artsiom Adamian.
